GPS portable vehicle security and location awareness

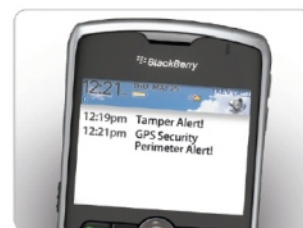

Portable Security and recovery for your vehicle and belongings with mobile phone alerting and location awareness

Product Overview

The ESCORT® Entourage™ PS is a small and portable combination of GPS and wireless technology, supported by an intuitive web interface. It protects your vehicle and belongings through real-time GPS tracking and security-related technology.

The ESCORT® Entourage™ can tell you where it's located, from your web browser, in real-time. It can tell you where your loved ones are when a phone call isn't possible. And can help you recover your vehicle or belongings in the event that they are stolen.

Instant security awareness through mobile alerting.

Features

Security alerting

Notifies you of security threats via email and text message (SMS) to any mobile phone

Wireless technology

Allows you to remotely interact with your Entourage PS via your Web browser and select smartphones

Portability

Allows you to protect any vehicle that you drive

Motion-sense alerting

Notifies you of tampering with email & text message alerts

GPS security perimeter monitoring

Alerts you if your vehicle or belongings leave without you

Real-time GPS tracking

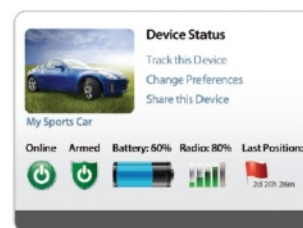

Tells you where your Entourage PS is at anytime

UltimateSense™ GPS technology

Allows Entourage PS to be conveniently hidden while delivering unmatched performance

Internal rechargeable battery

Gives up to 1 week battery life before recharging again

See the status of your device online in addition to tracking and other features.

Real-time GPS tracking tells you where your vehicle is at anytime.

User interface, graphics, and features subject to change.

GPS portable vehicle security and location awareness

What's in the box?

- Entourage PS vehicle security device
- Wall charger
- Car Charger
- Getting started guide

Product Specification

Size & weight

- Length: 11.1 cm L, 6.3 cm W, 2.1 cm T (4.3" L X 2.4" W X 0.8" T)
- Weight: 85 g, 3.0 oz

Environmental

- Operating temperature: -20°C to +55°C (-4°F to +131°F)
- Storage temperature: -30°C to +75°C (-22°F to +167°F)
- Humidity: 100% condensing
- Ingress protection level: IP65

Buttons, indicator lights & connector

- Green power / wireless connection indicator light (LED)
- Security arm/disarm button
- Red security arm indicator light (LED)

Wireless

- GSM/GPRS: Quad-band (850 MHz, 900 MHz, 1800 MHz, 1900 MHz)
- Always-on connection
- 2-way communication enables real-time tracking & remote arm and disarm

Security Alerts (via email and SMS text message)

- GPS Security perimeter alert
- On-backup battery notification (power disconnect from vehicle)

Notifications (via email and SMS)

- Low vehicle battery notification
- Low internal backup battery notification
- On-network notification, off-network notification

GPS

- 20-channel GPS receiver
- Industry-leading UltimateSense™ GPS antenna technology: Makes the most of weak GPS coverage

Tracking performance

- Real-time tracking turnaround time: 20 seconds typical
- Continuous tracking turnaround time: 5 to 10 seconds per location after the first location
- Location accuracy: <5 m outdoors typical, <150 m indoors typical

Power & battery

- Power connection: built-in 2-conductor power cable (2m)
- Power system compatibility: 12 VDC and 24 VDC nominal systems
- Input voltage range: 10 to 36 VDC
- Up to 7 day battery life
- Internal battery charger: Yes

Computer Requirements

- PC Web browsers: Internet Explorer, Firefox, Safari
- Mac Web browsers: Safari, Firefox

Mobile phone requirements

- Mobile alerting: Any mobile phone supporting SMS (text message)
- Remote SMS tracking interface

Warranty

- 1-year limited
